Our Care

In a Tanglewood care home, we cater for residents who need all varieties and levels of care. We assess every prospective resident subjectively on an individual basis. Following this process, a personalised recommendation is made by our team of highly-trained and dedicated staff members. Any new resident receives a bespoke Personal Care Plan, ensuring the most comfortable transition as they begin to write the next chapter of their lives. Our core values underpin everything that we do, delivering the best possible care and service to all our residents, plus peace of mind for family and friends.

Respite Care

Respite care is generally 'short term' for people who are usually looked after by a relative or professional carer at home. It is also for people who have been in hospital but require a period of convalescence. Many people arrange a trial stay as a temporary resident to see if the home is the right long term option for them.

Residential Care

Residential care is generally for people who require a low level of support. It may include assistance with washing and bathing, and other activities of daily living. It is primarily for those who are finding it difficult to cope at home, or who need more help than home carers are able to provide.

Dementia Care

Our team members are trained to support people living with dementia. Through daily interactions, activities and compassion, our team learn about the individual's needs and help them feel settled and safe. We make sure people with dementia receive the quality of care that suits them best.

Day Care

At Richard House we recognise that some people are not ready to move into a care home permanently, or ready for any overnight stays. We do also recognise that as a carer you may still require support, and that you or your loved one may require some social interactions with other individuals. We can support you with this by offering day care services.

Palliative Care

At Richard House we understand that end of life care is an extremely difficult time, and we want to support you in this process by providing a warm, welcoming atmosphere. Our teams are compassionate and caring, and will provide you with all the support you and your loved one require.

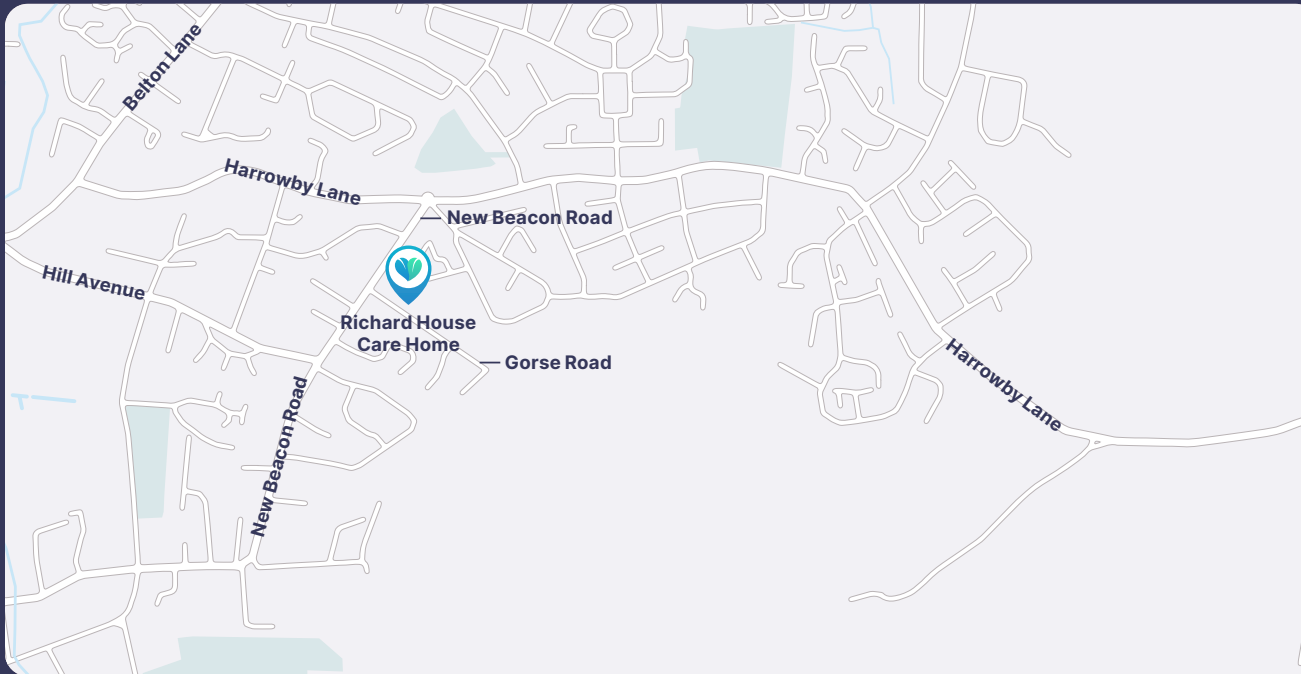

Activities

Richard House offers a range of activities that appeal to our residents, regardless of interests and abilities. All activities are of course optional, but we do encourage our residents to be involved to increase their social interaction, mental stimulation and, most importantly, their enjoyment. Activities take place in groups, small task groups or one-to-one. Our dedicated Lifestyles Coordinator is an integral member of our team. They ensure monthly meetings are held with our residents to ensure that activities reflect their interests and choices.
